

Options for a Permanent Policy Coordination Mechanism for Ocean Governance and Sustainable Financing Plan in the CLME+ region

1st Major Consultation Meeting
Cartagena, 25-26 September 2018

Introduction to the Meeting Objectives and Agenda

MEETING OBJECTIVES

- Sensitize CLME+ countries about the Consultancy, its different Phases, and the expected final outcomes
- Provide CLME+ countries a forum to share their national position on the proposed PPCM and SFP options with other CLME+ countries
- Discuss and prioritize a short-list of PPCM and SFP options for further development under Phase II of the Consultancy
- Obtain from CLME+ countries and the CLME+ SAP Interim Coordination Mechanism (a grouping of 8 key Inter-Governmental Organizations with a formal mandate on the marine environment in the CLME+ region) their continued commitment towards the PPCM and SFP development and endorsement process
- Agree on an approach for the way forward and next steps under Phase II

Main expected outcome: Agreed shortlist of PPCM and SFP options for further refinement and selection

MEETING PARTICIPANTS

- Representatives from CLME+ countries as participants to discuss and prioritize PPCM and SFP options
- Representatives from ICM member organizations as resource persons
- Representatives from other international/regional organizations and member of the PPCM-SFP Technical Task Team (TTT) as observers
- Consultant team and PCU as facilitators

UNDP/GEF CLME+ Project launches consultancy to identify options for a Permanent Policy Coordination Mechanism and a Sustainable Financing Plan for ocean governance in the CLME+ Region

In November 2017, the UNDP/GEF Project "Catalyzing the Implementation of the Strategic Action Programme for the Sustainable Management of Shared Living Marine Resources in the Caribbean and North Brazil Shelf Large Marine Ecosystems" (<http://www.clmeproject.org>) awarded a consultancy to identify options for a regional Permanent Policy Coordination Mechanism and a strengthened Regional Governance Framework for shared living marine resources and ocean governance in the CLME+ Region, with a Sustainable Financing Plan. The mandate for this consultancy arises from the CLME+ Strategic Action Programme, which was politically endorsed by over 30 government ministers representing 25 countries, and 6 overseas territories in the CLME+ region. Leading the consultancy is the Centre of Partnerships for Development (CAD), based in Barcelona, Spain (<https://global-cad.org/en/>), with the Centre for Resource Management and Environmental Studies (www.czmehi.law.edu/crmehi/home.aspx) as the advisory group. The consultants are working closely with the countries that have endorsed the CLME+ Strategic Action Programme, multiple Inter-Governmental Organisations, and other stakeholders in the region.
